ABOUT FENCE FACTORY

Fence Supplies and Installation for Over 40 Years!

Robert Bennett, who began his career in the fence industry in Torrance, California over 40 years ago, founded Fence Factory in 1972. Since then, with the help of his wife Myrna, family and loyal employees (some of whom have been with the company for over 20 years) Fence Factory has expanded all along the California coast.

Fence Factory is your one stop shop for all of your fencing needs. We specialize in the manufacture, sale and installation of a wide variety of fencing and related products, including residential, commercial and industrial fencing, horse corrals, guard rails, bridge railing, gate operators, security systems, wild animal enclosures, portable toilets and much more.

No project is too large or too small. We work with residential clients, do-it-yourself projects, commercial clients and government facilities. Come visit us or we'll come to you- either way, we have a 100% Customer Satisfaction Guarantee. How do we do it? We care. Not only do we stock the best quality products, we value our employees and take care of them—to ensure that they take care of you. Our helpful associates have top-notch experience in sales, installation and customer service.

Objective: Fence Factory's goal is to provide all of our customers with superior service, top quality materials and as much expert advice as needed to solve their problems and satisfy their needs. We must continually strive to improve our service and product mix. To be the most responsive and efficient Fencing Contractor and Fencing Material supplier in Ventura, Santa Barbara, Los Angeles and San Luis Obispo Counties. Our pricing needs to be competitive and fair - providing our customers the best value. We are to provide meaningful, fulfilling and long lasting jobs for our employees.

Vision: Fence Factory is to be the first to introduce new products and services to our customers. We must grow in all areas of service. Geographically we will expand, but cautiously and conservatively. We will be the most influential company of our kind on the West Coast.

Values: Our actions are seen by all who come in contact with us . . . our ultimate employer is our customer. To that end we must conduct ourselves with the highest moral and ethical values, deal fairly and honestly with customers and fellow employees alike. Our mind set must be to strive toward excellence in all aspects of our business and personal lives. We do not always need to be the least expensive, but we do need to provide the best value and also to provide meaningful, fulfilling and long-lasting jobs for our employees.

ORNAMENTAL IRON FENCING AND GATES

Ornamental Iron Fencing and Gates

Ornamental iron fences and gates have been the architectural choice for attractive security worldwide on public, commercial, industrial, and residential properties for hundreds of years. Fence Factory® offers custom made gates that add beauty and security to properties throughout the country. Combining modern technology with traditional elegance and craftsmanship, Fence Factory® is able to offer a unique, modern ornamental solution with the look of fencing forged by the hands of master blacksmiths.

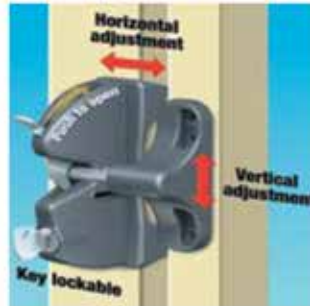

Custom Gates Orders cannot be canceled. Gates are manufactured to customer specifications and cannot be returned.

Product assortment varies by location. Check with your local Fence Factory branch for product availability

VINYL FENCING AND GATES

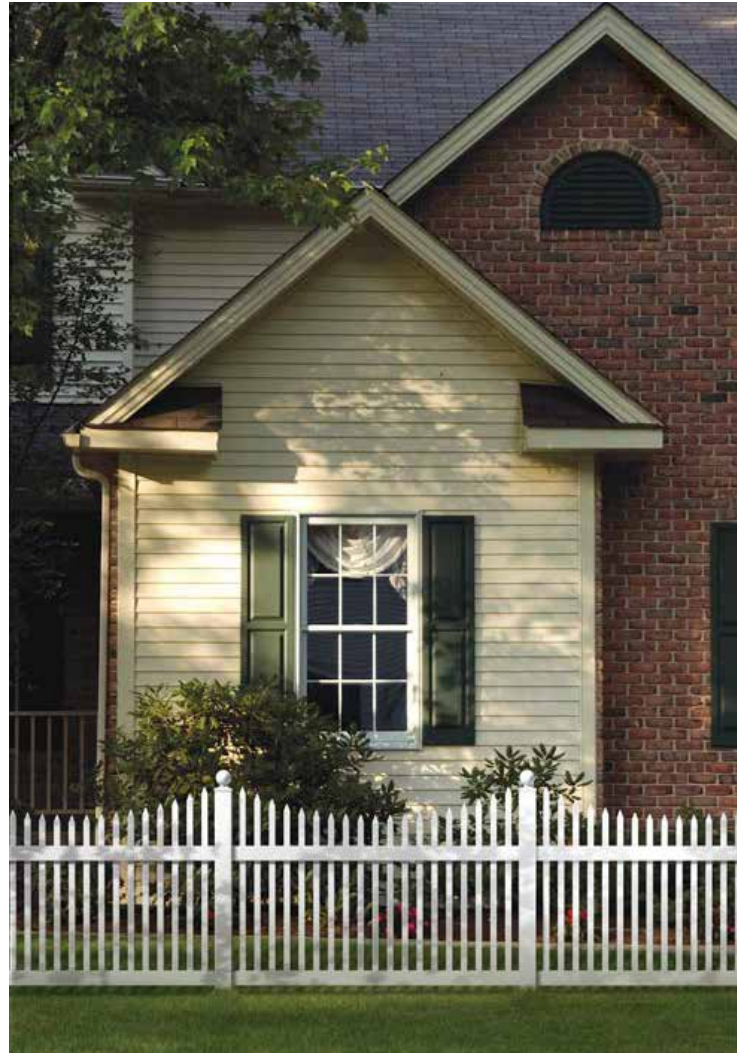

Vinyl Products

Vinyl fencing is a wonderful material that is beautiful and maintenance-free. It has become very popular as an option for fences, gates, decks, patio covers, pool fences and more because of the many advantages vinyl has to offer.

One of the best reasons for using vinyl material for outdoor home improvement projects is that vinyl needs minimal maintenance throughout its lifetime. Maintaining a wood or metal fence is needed as the materials fade, rot, chip or rust every few years. Unlike wood or metal, vinyl is designed to withstand the elements. High grade vinyl will not fade, rot, rust, or look old. The only maintenance you will need to perform on your vinyl fence is to wash with soap and water and your fence will look like new! It's the only fence you'll need for the life of your property and you will never have to worry about replacing your fence or having a yard that looks old and run down.

Wood and metal fencing may be more affordable than vinyl in the beginning, however vinyl will cost less in the long run when it comes to maintenance and minimal replacement costs, if any.

Vinyl is highly customizable, the options are virtually limitless. A large variety of styles and accessories that match every setting makes vinyl fencing one of the most beautiful types of fences available today. With the many types of fencing, decking, patio covers, and railings needed for your home, vinyl can be a high-end upgrade to your property that is also affordable and can offer many ornamental designs.

VINYL FENCING AND GATES

Fence Factory is dedicated to supplying a comprehensive and high-quality line of vinyl products that provide solutions. The Vinyl Craft product offering fulfills those needs, and offers the following features & benefits:

- Pre-Assembled Panels
- Save Time & Labor Costs
- High Quality Construction
- Superior Packaging
